

Published Abstracts at York College

**** denotes coauthorship with a York College Biology major**

Rehnberg, B. 2011. Silk webs of the fall webworm (*Hyphantria cunea*): hot spots and their resistance to forced convective cooling. **Pennsylvania Academy of Science 84:**

Hartzler, C.,** Hartzler, J.R. and Rehnberg, B.G. 2011. An analysis of the benthic insect community in McMichael's Creek, PA under open and closed tree canopies. **Journal of the Pennsylvania Academy of Science 84:**

Riley, M.** and Rehnberg, G. 2011. The influence of ambient and den temperature on the above-ground activity of woodchucks (*Marmota monax*) in south-central Pennsylvania. **Journal of the Pennsylvania Academy of Science 84:**

Bauernfeind, S.** and Rehnberg, B. 2010. The impact of the threat of predation by cichlids (*Petenia splendida*) on reproduction in guppies (*Poecilia reticulata*). **Journal of the Pennsylvania Academy of Science 83: 114.**

Broking, C.** and Rehnberg, B. 2010. The effects of water flow rate and swim time on the escape response of golden shiners (*Notemigonus crysoleucas*). **Journal of the Pennsylvania Academy of Science 83: 117-118.**

Dieso-Ballesteros, L.**, Lawrence, J.**, Levisky, J. and Rehnberg, B. 2009. A comparison of the temperature of five body regions of a decomposing porcine corpse above and below ground. **Journal of the Pennsylvania Academy of Science 82: 146-147.**

Giordano, S.**, Guariglia, S., Wen, G. and Rehnberg, B. 2009. Preference for social novelty in phenotypically autistic CD1 Mice. **Journal of the Pennsylvania Academy of Science 82: 149.**

Hunsicker, R.**, Grove, J. and Rehnberg, B. 2009. Effect of lunar

cycles on nocturnal activity of white-tailed deer in south central Pennsylvania. **Journal of the Pennsylvania Academy of Science** 82: 153.

Jaff, M.** and Rehnberg, B. 2009. Effects of aldosterone on heart size and septum thickness in male CD1 mice. **Journal of the Pennsylvania Academy of Science** 82: 153.

Pantelich, E.** , Boehmler, W. and Rehnberg, B. 2009. The effects of caffeine on the learning and memory of zebrafish (*Danio rerio*). **Journal of the Pennsylvania Academy of Science** 82: 162.

Becker, C.** , Rehnberg, B. and Mathur, C. 2008. The effects of chronic exposure to common bedding materials on the metabolic rate and overall health of male CD-1 mice. **Journal of the Pennsylvania Academy of Science** 81: 109.

Chu, J.** , Daly, R. and Rehnberg, B. 2008. A study of Lyme Disease patients of a suburban outpatient clinic: Prevalence of symptoms, efficacy of the western blot, and factors affecting the duration of antibiotic treatment. **Journal of the Pennsylvania Academy of Science** 81: 112.

Keller, N** . and Rehnberg, B.G.. 2006. The effect of oddity in prey selection of largemouth bass (*Micropterus salmoides*). **Journal of the Pennsylvania Academy of Science** 79: 113.

Rehnberg, B.G. 2005. Circadian temperatures inside silk webs of the fall webworm, (*Hyphantria cunea*): The influence of weather and orientation to the sun. **Journal of the Pennsylvania Academy of Science** 78:129-130.

Rehnberg, B.G. 2004. Daily capture and loss of environmental heat by webs of the fall webworm, *Hyphantria cunea* (Lepidoptera: Arctiidae). **Journal of the Pennsylvania Academy of Science** 77:146.

Roller, R.L.** and Rehnberg, B.G. 2003. The assessment of timed

pre-natal lead exposure on neural development based on task performance in CD1 mice. **Journal of the Pennsylvania Academy of Science** 76:131.

Kohlman, A**. and Rehnberg, B. 2002. The effect of eye-patching on territorial aggression and cortisol release in *Anolis carolinensis*. **Journal of the Pennsylvania Academy of Science** 75:111.

Lyons, J.J**. and Rehnberg, B.. 2002. Effects of a small trout hatchery on water chemistry of the East Branch of the Codorus Creek in York County, Pennsylvania. **Journal of the Pennsylvania Academy of Science** 75:113.

Rehnberg, B.G. 2001. Thermal properties of webs of the fall webworm caterpillar (*Hyphantria cunea*): Infrared warming and convective cooling. **Journal of the Pennsylvania Academy of Science** 74: 146.

Doll, K**. and B.G. Rehnberg. 2000. Learning and long-term memory of food patch locations in male and female Mongolian gerbils (*Meriones unguiculatus*). **Journal of the Pennsylvania Academy of Science** 73:156.

Rose, D.** and B.G. Rehnberg. 2000. The time that female mouse pups (*Mus musculus*) spend with their mothers: Effects on F2 litter size, pup weights and sex ratio. **Journal of the Pennsylvania Academy of Science** 73: 176.

Brown, R.** and B.G. Rehnberg. 1999. Fright reactions in two groups of blacknose dace (*Rhinichthys atratulus*) to a water spray: Effects of proximity to a car crossing. **Journal of the Pennsylvania Academy of Science** 72:153.

Wood, B.J.** , B.G. Rehnberg, A. Kyle, A. Fogarty, S. Dietz and H. Vitolins. 1999. Effectiveness of Pennsylvania's Department of Environmental Protection blackfly (*Simulium jenningsi*) suppression program in Bradford County Pennsylvania. **Journal of the Pennsylvania Academy of Science** 72:186-187.

Gatto, S.** and B.G. Rehnberg. 1998. Analysis of female preferences for variations of male traits in zebra finches (*Taeniopygia guttata*). **Journal of the Pennsylvania Academy of Science** 71:173.

Shaffer, M.** and B.G. Rehnberg. 1998. Tree selection for antler rubbing by white-tailed deer (*Odocoileus virginianus*). **Journal of the Pennsylvania Academy of Science** 71:194.

Blatt, R.** and B.G. Rehnberg. 1997. Inhibition of behavioral responses of the golden shiner (*Notemigonus crysoleucas*) to visual, chemical, and lateral line stimuli by the fish anaesthetic MS-222. **Journal of the Pennsylvania Academy of Science** 70:167.

Rehnberg, B.G. 1997. Behavioral responses by golden shiners (*Notemigonus crysoleucas*) to visual, chemical, lateral line, and combined stimuli. **Journal of the Pennsylvania Academy of Science** 70:189.

Savoie, E.R.**, B.G. Rehnberg and L.M. Savoie. 1996. Comparative analysis of laparoscopic versus open colon resection for carcinoma. **Journal of the Pennsylvania Academy of Science** 69:163.

MacKinnon, B.I., M.E. Frank and B.G. Rehnberg. 1996. Sweetener similarity in hamsters as determined by generalization of conditioned taste aversions. **Chemical Senses** 21:637-638.

Grogan, S.** and B.G. Rehnberg. 1996. Food digestibility and water budgets in a captive great-horned owl (*Bubo virginianus*) and red-tailed hawk (*Buteo jamaicensis*). **Journal of the Pennsylvania Academy of Science** 69:148.

Deeds, K.J.** and B.G. Rehnberg. 1995. Effects of gustatory stimuli on protein and solute concentrations in human whole-mouth saliva. **Journal of the Pennsylvania Academy of Science** 68:173.

Rehnberg, B.G., B.I. MacKinnon, T.P. Hettinger and M.E. Frank. 1995. Behavioral responses of hamsters (*Mesocricetus auratus*) to polysaccharide taste stimuli. **Journal of the Pennsylvania Academy**

of Science 68:191.

Brill, S.E.** and B.G. Rehnberg. 1995. Thermic effect of food, at rest and with exercise, in lean and overweight active females. **Journal of the Pennsylvania Academy of Science** 68:170.

Rehnberg, B.G., B.I. MacKinnon, T.P. Hettinger and M.E. Frank. 1994. Neural responses of hamsters (*Mesocricetus auratus*) to polysaccharide taste stimuli. **Journal of the Pennsylvania Academy of Science** 67:194-195.

MacKinnon, B.I., M.E. Frank and B.G. Rehnberg. 1994. Glycogen, a polysaccharide with a taste to hamsters? **Chemical Senses** 19:511.

Stauffer, K.E.**, B.G. Rehnberg and B.B. Smith. 1993. Energetic cost of terrestrial locomotion in the snake *Thamnophilis sirtalis*. **Journal of the Pennsylvania Academy of Science** 66:205.
